

WORK EXPERIENCE

Data Analyst

June 16, 2024 – November 24, 2024

Lazada | Agile 360 Degree

- Utilized SQL to retrieve, validate, and manage logistics and billing data for high-value claims and invoice reconciliation. Prepared executive summaries and reports, including the Claims Master File, to support internal decision-making. Managed the full billing cycle—creating, updating, and deleting payment requests, and overseeing invoice validation for payment processing. Ensured data integrity, accuracy, and compliance across all claims, billing, and financial operations.
- Maintained structured databases to support accurate and efficient tracking of shipments and billing transactions. Processed and validated exception cases, including “No Cargo Rejected” shipments and 50KG+ cargo (especially with J&T). Conducted claims verification and dispute checks with 3PLs, particularly Ninjavan and Flash Express.
- Extracted sensitive claims data from the financial management portal to support dispute resolution with 3PL partners (Ninjavan, Flash Express, J&T Cargo Express). Consolidated raw data files from the Billing Portal and integrated them into control tower files using Excel tools (VLOOKUP, PivotTables).

Recovery Operations Assistant

June 19, 2023 – August 28, 2023

Ninja Express Tech. Philippines, Inc. / One Green Arrow

- Investigated damaged and high-priority parcels via the Ninjavan Admin site, identifying causes, tracking parcel movements, and coordinating timely resolutions. Utilized advanced Excel functions (e.g., PivotTables, VLOOKUP, IF statements, filters) to track parcel issues, generate reports, and analyze trends in parcel mishandling. Managed priority parcels to ensure fast-tracked resolution and successful delivery, minimizing impact on customer satisfaction.
- Oversaw the secure handling and documentation of high-value parcels, ensuring compliance with company protocols and audit requirements. Collaborated closely with logistics, customer service, and 3PL teams to coordinate the recovery and redelivery of affected parcels. Documented investigation results with accuracy and detail to support escalation processes and internal reviews.
- Communicated proactively with customers regarding parcel issues, status updates, and resolution actions. Identified recurring parcel handling issues and recommended preventive process improvements. Ensured strict adherence to company policies and parcel handling guidelines to maintain operational integrity. Delivered responsive and solution-oriented customer service throughout the claims and investigation process.

ADDITIONAL EXPERIENCES

- Processing Staff 2023 – 2023
 - Head Waiter & Kitchen Staff 2019 – 2022
 - Freelance Graphic Designer and Video Editor 2018 – 2020

EDUCATION

College:	Pamantasan ng Cabuyao	Cabuyao, Laguna
	- Bachelor of Science in Computer Science - Expected 2026	
Senior High School:	Pamantasan ng Cabuyao Senior Highschool	Cabuyao, Laguna
	- Science, Technology, Engineering, and Mathematics (STEM)	
	- With Honors	
Junior High School:	Gulod National Highschool	Cabuyao, Laguna
Elementary:	Gulod Elementary School	Cabuyao, Laguna

TRAINING & CERTIFICATIONS

TESDA

- SMART Technopreneurship 101
- Introduction to CSS
- Installing and Configuring Computer System

AWS Training and Certification

- Fundamentals of Analytics on AWS 1
- Fundamentals of Analytics on AWS 2
- Introduction to Building with AWS Databases

CISCO

- Computer Hardware Basics
- Introduction to Modern AI
- C++ Essential 1 (DICT Certification)

WEB PROJECTS

Sales Forecasting Application - https://github.com/acyklyne/Sales_Forecasting_Application.git

- Web app for monitoring real-time sales and predicting six-month trends using JavaScript and TensorFlow.js. Includes ML-based forecasting, visual analytics, and an intuitive dashboard for non-technical users.

Ikat-Talam - <https://github.com/acyklyne/Ikat-Talam.git>

- Digital platform preserving Cordillera’s indigenous weaving through e-commerce, storytelling, and cultural archiving. Developed with Next.js and Django, supporting local weavers by connecting them to wider markets.

CakeCraft - <https://github.com/acyklyne/CakeCraft.git>

- Web platform for designing custom cakes, built with ReactJS, Tailwind CSS, Laravel, and MySQL. Promotes accessible technopreneurship and sustainable online business for small bakeries.

TECHNICAL SKILLS

- **Database Management:** MySQL and SQL for querying, validation, and reporting.
- **Data Analytics & Excel:** VLOOKUP, PivotTables, filters, trends, and analytics reports.
- **Programming Languages:** Java, Python, JavaScript, SQL, etc.
- **Web Development:** HTML, CSS, JS, React, Tailwind, Laravel, and TensorFlow
- **Cloud & AWS Tools:** AWS-trained in analytics, databases, and cloud workflows.
- **Software & Platforms:** Jira, MS 365, Google Workspace, finance/logistics systems.
- **Artificial Intelligence:** APIs, Machine Learning, OpenAI, etc.
- **Version Control & Workflow Tools:** Used GitHub, Jira in agile team environments.
- **Hardware & Systems:** Highly trained in system configuration and troubleshooting.
- **Creative Tools:** Adobe, Canva, Figma, Sketchbook, Picsart for graphics and editing.
- **UI/UX Design:** Figma for UI/UX prototyping and interface design.

PERSONAL INFOMATIONS

Birthdate: March 17, 2004

Birthplace: Santa Rosa, Laguna

Religion: Roman Catholic
