PROFESSIONAL SUMMARY

Data and computer science professional with experience in logistics data analysis, SQL and Excel reporting, claims validation, technical troubleshooting, and full-stack web development. Skilled in building data-driven and AI-assisted digital solutions, with a strong focus on accuracy, workflow improvement, and user-centered technical support.

EXPERIENCE

Developer Intern

TheOrange.Design January 2026 — May 2026

- Supported development tasks by improving page sections, fixing layout issues, and implementing clean, responsive layouts.
- Spearheaded data migration and configuration tasks by organizing, cleaning, and validating records from multiple sources to maintain accurate and structured data.
- Worked on Synergy Medical Group website development by converting the Figma design into a static, mobile-friendly website using HTML, CSS, JavaScript, and jQuery, while following proper semantics and responsive breakpoints.

Founder / Lead Technical Service Provider

The Techsmith by Acy January 2025 — Present

- Built and established The Techsmith by Acy, a technology service provider specializing in PC repair, hardware and software upgrades, troubleshooting, and digital solutions for everyday users, students, and gamers.
- Served 300+ clients across Laguna through PC repair, troubleshooting, hardware upgrades, software setup, and remote support.
- Rebranded and rebuilt the business presence under The Techsmith by Acy, strengthening brand identity and client trust.

Data Analyst

Lazada | Agile 360 Degrees June 2024 — November 2024

- Consolidated, validated, and analyzed high-value claims, billing records, invoice data, and exceptional handling materials from Lazada financial and billing portals to support accurate payment processing and claims resolution.
- Processed and validated logistics exceptions including No Cargo Rejected Tagged shipments, Over 50KG J&T Cargo Express cases, EH approvals, 3PL import files, accepted and pending raw data, and disputed claims from 3PL partners such as Ninjavan and Flash Express.
- Prepared Claims Master Files, Billing Executive Summaries, Control Tower reports, and finance-ready datasets using Excel tools such as PivotTables, VLOOKUP, filters, and data validation to support billing accuracy, invoice checking, and payment request creation or deletion.

Recovery Operations Assistant

Ninja Express Tech. Philippines, Inc. | One Green Arrow June 2023 — August 2023

- Investigated damaged, high-priority, and high-value parcels using the Ninjavan Admin site to track movements, identify root causes, and coordinate timely recovery actions.
- Used Excel tools such as PivotTables, VLOOKUP, IF statements, and filters to monitor parcel issues, generate reports, analyze mishandling trends, and support escalation reviews.
- Coordinated with logistics, customer service, and 3PL teams while providing customer updates and documenting investigation results to support escalation and resolution processes.

PROJECTS

PNC iLab Reserve — Next.js, Prisma, SQLite

- The Laboratory Reservation and Utilization System for Pamantasan ng Cabuyao (PNC) is a web-based platform designed to streamline the scheduling, management, and monitoring of laboratory room usage across the institution.

Ikat Talam — Next.js, Django, MySQL

- Ikat Talam: Story of Weave and Ancestry is a digital platform that promotes Cordillera indigenous weaving through e-commerce, storytelling, and cultural archiving, helping local weavers expand their market while preserving cultural heritage.

Smart Sales Forecasting System — Next.js, TensorFlow, Tailwind

- This application integrates TensorFlow-based artificial intelligence to monitor daily sales, analyze historical sales patterns, and predict incoming sales for the next six months.

EDUCATION

Bachelor of Science in Computer Science

University of Cabuyao June 2026

SKILLS

Web Development: Next.js, React, Tailwind CSS, Laravel, Prisma, SQLite, MySQL

Data & Analytics: SQL, Excel, Sheets, Python, Data Reporting

AI & Machine Learning: TensorFlow, ML, Vibe coding

Technical Support: PC/Laptop Troubleshooting, Software and Hardware Repair & Maintenance
